### EXPERIENCE

**Front End Engineer**, Kinetx Co  
May 2020 – Present | New York, NY  
– Aligned 10-member team, located across three time zones, on Kino's aesthetic and functionality by overseeing the video chat platform's UI/UX design.  
– Educated 100+ weekly users on the core features of Kino by building an interactive product walkthrough.  
– Identified 250+ bugs, errors, and interoperability flaws by managing the QA process and user testing Kino.

**Patternmaker**, Ferrara Manufacturing  
April 2019 – Sept 2019 | New York, NY  
– Reduced specification errors by 20% by altering and altering automated patterns to client measurements.  
– Increased productivity by 10% over six months by engineering patterns for automatic cutting.

---

### PROJECTS

**Pintoit** (Website | GitHub)  
– Created and deployed a Pinterest-inspired full-stack app using React, Redux, and Ruby on Rails.  
– Engineered full CRUD functionality and ensured user privileges through front & back end authentication.

**Felix** (Website | GitHub)  
– Led 4-member team in front end development for app that provides curated content in sync with user's mood.  
– Conceptualized and designed UI/UX of platform.

**Algo Visualizer** (Website | GitHub)  
– Built a VanillaJS app that grants users access to see how sorting algorithms operate.  
– Implemented Bubble Sort and Quick Sort algorithms.
